Backup Power Consumer Disclosure:

For many years, your home phone would allow you to stay connected to emergency voice services during a power outage. However, many of today's advanced home phone services require backup battery power to continue functioning during an outage. To avoid a disruption of home voice service during an outage – and to maintain the ability to connect to 911 emergency services -- we at Star Communications (STAR) offer you the option of purchasing backup power for your home phones.

What Your Battery Can – and Can't – Do for You: STAR's backup batteries for telephone modems allow you to continue to use your home voice services during a power outage. Without a backup battery or alternate backup source such as a generator, customers will not be able to make any calls, including emergency calls to 911. The only way to maintain the ability to use your phone is by using some form of backup power. Our backup battery does not provide power to any services other than voice. Home security systems, medical monitoring devices and other equipment will not run on a home phone backup battery.

Purchase and Replacement Options: If you are concerned with interrupted service and availability to contact 911 emergency services during a power outage, a backup battery may be a good option for you. The batteries offered by STAR are approximately 5 to 10 lbs. and are roughly the size of a telephone. You can purchase a backup battery directly from STAR. If you have any questions or simply want to purchase a backup battery, please call 1-800-706-6538 or go to your local STAR retail office. Our 8 hour backup batteries cost approximately \$90 and our 24 hour backup batteries cost approximately \$329. Both options include the battery, cable, and installation.

Expected Backup Power Duration: The 8 hour backup batteries are expected to last at least 8 hours on standby power; the backup battery should give you 4 hours of talk time. The 24 hour backup batteries are expected to last at least 24 hours on standby power; the backup battery should give you 8 hours of talk time. If you feel that is not enough time, you may extend your standby power by purchasing a third-party backup solution or generator.

Instructions for Proper Care and Use of Your Battery: Please follow the more detailed instructions included with your battery for proper use, storage and care of your battery to ensure that it will function as needed during a power outage. If you do not store your battery correctly, it may shorten its useful life. Environmental factors such as temperature can shorten your battery's useful life. We recommend that you store your battery above 41°F and below 104°F. These batteries will not last forever and should be replaced every 3 years, or when your device starts to make a loud beeping sound or the battery indicator light turns red. That sound/light means that the battery is depleted, and must be replaced.

See the instructions above for purchase and replacement options. You should also periodically, as described in the instructions included with your battery, remove and test your battery to verify both the operation of the backup battery and its condition.

Do Not Call:

The National Do Not Call Registry was created to prevent unwelcome calls from telemarketers. It prohibits all telemarketers, except companies with which you have an existing relationship and certain non-profits, from calling you. Inclusion of your name on the list will go into effect three months following your registration. Your number will remain on the registry permanently unless you request it be removed. To register your home or cell phone call: (888)382-1222. For TTY calls: (866) 290-4236. For more information or to register online visit: www.donotcall.gov

Lifeline Program:

The Lifeline program reduces your monthly bill for telephone or broadband internet service for qualifying customers. Under FCC guidelines, if you participate in the Federal Housing Assistance/Section 8, Medicaid; Supplemental Security Income (SSI); Supplemental Nutrition Assistance program (SNAP); Survivor Benefit or Federal Veterans Pension programs you may qualify for the Lifeline program. Additional eligibility requirements may apply to residents of federally recognized tribal lands. To learn more about these programs, contact your local telephone company or visit: www.usac.org

Illegal/Fraudulent Activity Disclaimer:

Use of Star Communications service(s) for illegal and/or fraudulent activity is prohibited and will be subject to immediate termination of service. Illegal and fraudulent activity includes but is not limited to the utilization of the telecommunications line for the purpose of originating spam and/or illegal robo-dialing and Caller ID spoofing.
