

FireStick Instructions

To activate the talking guide (known as VoiceView) on your Firestick, **press and hold the Back and Menu (three lines) buttons on your remote at the same time for two seconds**, or go to **Settings > Accessibility > VoiceView** and turn it

On.  TikTok · free_tech_official +1

Roku Instructions

To activate the talking guide (officially called **Audio Guide** or **Screen Reader**) on your Roku, **press the Star (*) button on your Roku remote four times quickly**. Alternatively, go to **Settings > Accessibility > Audio Guide** and select **On.**  tcl.com +1

Android/Google Box (EvoPro) Instructions

To activate the talking guide (TalkBack screen reader) on an Android TV / Google TV device like the Evo Pro box, press the **Google Assistant** button on your remote and say "Turn on TalkBack," or navigate manually through the on-screen settings.  Google Help +1

Enable via Settings Menu

1. Press the **Home** button on your remote to go to the main screen.
2. Select the **Settings** (gear icon) usually found in the top or bottom corner of the interface.
3. Scroll down and select **Device Preferences**.
4. Choose **Accessibility**, then select **TalkBack**.
5. Toggle **Enable** to **On** and select **OK.**  Sony Middle East +3
